

UAE BULLION MARKETPLACE

CRIDORA

Own Real Metal. From Anywhere.

Business Proposal — Precious Metals Trading, Reimagined for the Digital Age

Prepared for Strategic Partners & Investors

Buying real gold shouldn't require blind trust.

Fragmented Market

Physical gold buying in the UAE is still walk-in-store, with no standard way to verify a dealer's credentials or track record.

Opaque Pricing

Quotes vary shop to shop with no live reference price — buyers can't tell a fair deal from a marked-up one.

Paper, Not Metal

Digital gold apps and bank gold accounts often sell a synthetic claim on gold, not real, allocated physical metal.

Vendors Lack Reach

Bullion dealers have limited digital presence and no shared trust or KYC infrastructure to sell credibly online.

The trusted marketplace for real, verified bullion.

Cridora connects KYC-verified buyers directly with KYB-verified UAE bullion dealers — for transparent pricing, real allocated metal, and a guaranteed path to sell back. Cridora never takes custody of the metal itself.

KYC / KYB Verified

Every buyer and every dealer is verified before they can transact.

Zero Platform Custody

Metal always stays with the vendor — Cridora is the trust layer, not the vault.

Transparent AED Pricing

Live spot-linked pricing replaces opaque, in-store quotes.

“

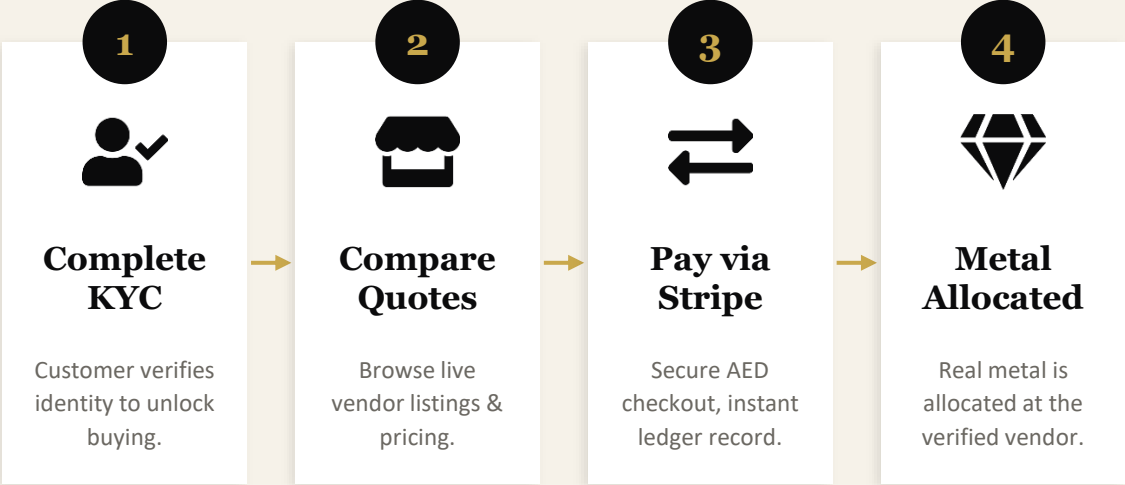

*Trust is not a feature.
It's the foundation.*

Every listing is backed by a verified vendor identity, documented credentials, and a guaranteed buyback mechanism — so buyers commit with confidence.

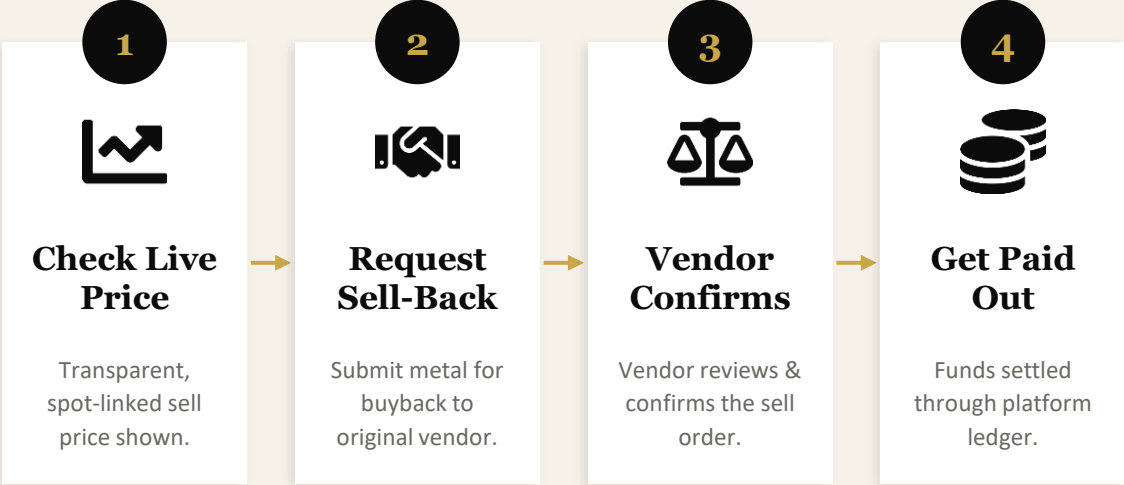

HOW IT WORKS

From verified buyer to real metal — and back again.

BUY FLOW

GUARANTEED SELL-BACK FLOW

PRODUCT OVERVIEW

A live marketplace with real-time market data.

Buyers filter listings across gold, silver, platinum, copper, and palladium — priced against live AED spot data, not guesswork.

Multi-Vendor Marketplace

Browse & filter listings by metal, purity, weight, and vendor — plus wishlist saved items.

Gold Market Matrix

At-a-glance live pricing grid across metals and product types.

Spot Price Ticker

Real-time AED spot price feed for gold, silver, copper, palladium.

Retail Rates Strip

Reference retail rates surfaced alongside live spot for context.

LIVE SPOT PRICES (AED / g)

Gold 24K	355.20	+0.42%
Gold 22K	325.60	+0.38%
Silver	4.18	-0.12%
Platinum	112.75	+0.65%
Palladium	98.30	-0.28%

One platform, three purpose-built control centers.

Customer Dashboard

- ✓ Orders & purchase history
- ✓ Live portfolio value
- ✓ Sell-back status tracking

Vendor Dashboard

- ✓ Catalog & pricing management
- ✓ "Live Sales Desk"
- ✓ EOD ledger & PDF exports
- ✓ Treasury & bank payouts

Admin Dashboard

- ✓ KYC / KYB review queues
- ✓ Transaction & cross-payment oversight
- ✓ Settlement & fee configuration

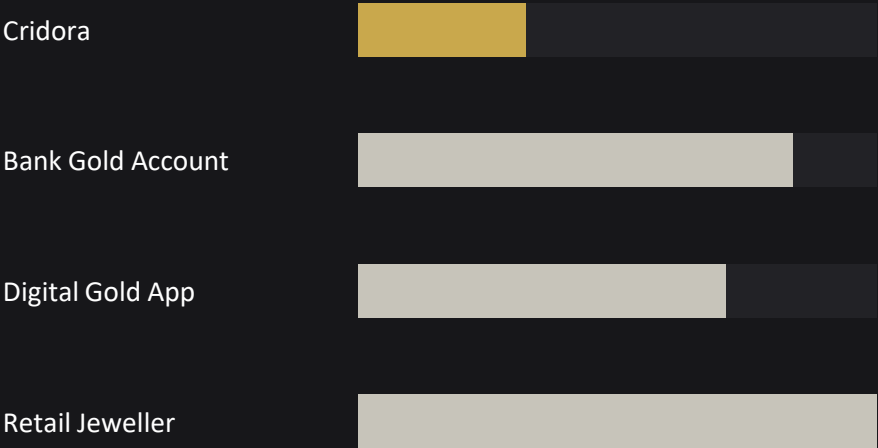

DIFFERENTIATOR

The UAE Digital Gold Comparison Tool

An interactive calculator that shows prospective buyers, side by side, how Cridora's transparent fees compare to illustrative composite fee models for UAE bank gold accounts, digital gold apps, and retail jewellers.

- ✔ Builds trust through radical fee transparency, before a buyer even signs up.
- ✔ Functions as an organic lead-generation and SEO asset for acquisition.
- ✔ Reframes the buying decision around real, allocated metal — not just price.

EFFECTIVE COST TO OWN (ILLUSTRATIVE)

Illustrative composite fee models — not offers from named brands.

Why buyers choose Cridora.

Verified Dealers Only

Every vendor is KYB-checked — no more guessing about legitimacy.

Transparent AED Pricing

Live pricing replaces opaque, in-store quotes.

Real, Allocated Metal

Physical ownership — not a paper or synthetic claim.

Guaranteed Buyback

A clear, price-transparent path to sell back to the vendor.

Buy From Anywhere

Global buyers, metal held securely with a UAE-licensed dealer.

Why bullion dealers partner with Cridora.

Expanded Buyer Reach

Access a growing pool of verified buyers without spending on independent advertising.

Shared Trust Layer

Plug into a ready-made KYC/KYB layer instead of building compliance infrastructure alone.

Guaranteed Liquidity

The platform-supported sell-back mechanism gives vendors a reliable liquidity partner.

Live Sales Desk

Manage catalog, pricing, and daily settlement from one operational dashboard.

“Having an app is useful, but being part of a trusted digital ecosystem is far more powerful.”

BUSINESS MODEL

A commission-based marketplace — no inventory risk.

Cridora earns transaction fees on both sides of the trade, plus a small share of vendor liquidity — without ever holding metal inventory or taking custody risk.

0.50%

Buy-Side Fee

Charged on every completed buy order.

0.50%

Sell-Back Fee

Charged on every guaranteed sell-back order.

5.00%

Vendor Net Share

Platform share of each vendor's positive daily net position, retained for sell-back liquidity.

End-of-day (EOD) settlement mechanics support guaranteed sell-back liquidity — Cridora is the trust and settlement layer, never the custodian.

TARGET MARKET

Anchored in the UAE. Built for global reach.

Cridora's vendor network is UAE-based and UAE-licensed — but buyers can purchase and hold metal from anywhere in the world.

UAE Bullion Vendors

Licensed dealers seeking digital distribution & shared trust infrastructure.

UAE-Based Buyers

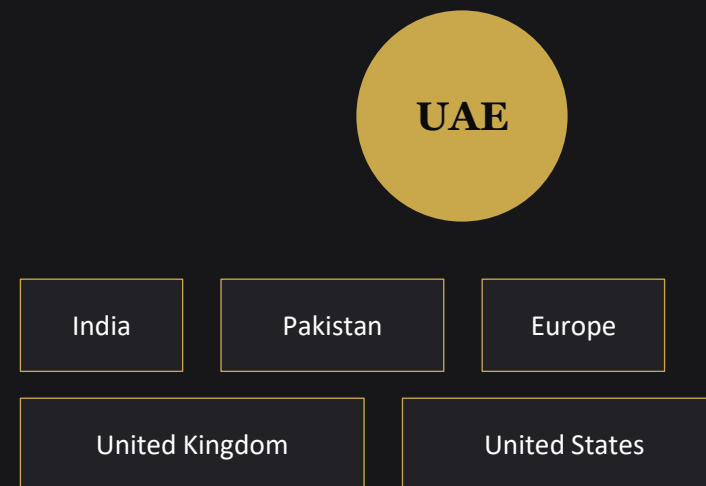

Residents and investors buying and storing metal locally.

Cross-Border Investors

International buyers from India, Pakistan, Europe, the UK, and the US, seeking UAE-held physical metal.

BUYER ORIGIN MARKETS

Built for scale, security, and compliance from day one.

Backend

Django REST Framework, JWT authentication, PostgreSQL database.

Payments

Stripe Checkout integration for secure AED transactions.

Frontend

React 19 + Vite, Tailwind CSS — fast, modern, installable as a PWA.

Deployment

Cloud-hosted on Railway, containerized for reliable, repeatable releases.

How Cridora compares.
